🎓 EDUCATION

Peking University(PKU), Beijing, China

2024 – Present

B.S. in Artificial Intelligence, EECS, expected July 2028

👥 EXPERIENCE

RedNote HI lab

Apr 2026 – Present

Research Intern, Multimodal Team, supervised by Weijian Luo

- Researching generative Transformer backbones for image generation by designing and evaluating full-history representation fusion and depth-routing mechanisms
- Developing reward-guided post-training methods for one-step image generators, translating feedback into supervision to improve fidelity and alignment

Huawei Beijing

Nov 2025 – Jan 2026

R&D Intern in Mindspore (Distributed and Parallel Computing Lab)

- Contributed to the R&D of Megakernel features within the MindSpore framework, focusing on low-level operator logic development and verification
- Collaborated on implementing operator fusion schemes, optimizing task scheduling and execution efficiency within heterogeneous computing environments

⚙️ SKILLS

- **Math foundation:** Advanced Mathematics, Linear Algebra, Prob & Stats
- **Platform:** Linux, Windows
- **Programming:** Python, C/C++, Rust, Shell, CUDA Programming, HTML/CSS, Node.js
- **AI & Data Sci:** Generative Models, Multimodal Learning, Machine Learning, NLP, LLMs, Computer Vision, Data Analysis & Visualization
- **Tools & Frameworks:** PyTorch, Git, Jupyter Notebook
- **Software Development:** Object-Oriented Programming (OOP), Git

LESSONS

- **Relevant Courses:** Data Structures and Algorithms, Advanced Mathematics(A), Linear Algebra, Computer Vision, Multi-Agent Systems, Stochastic Processes, Computer System
- **Self-taught course:** CS231n, CMU 11-711(Advanced nlp)
